# The Enterprise Europe Network Services

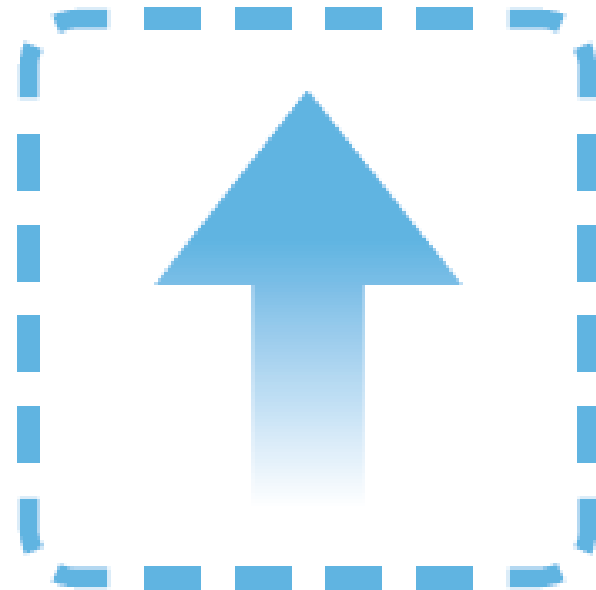

- Technology Promotion
  - (Technology Database)
- Technology e-Alert
- Partnering Events

# Technology promotion

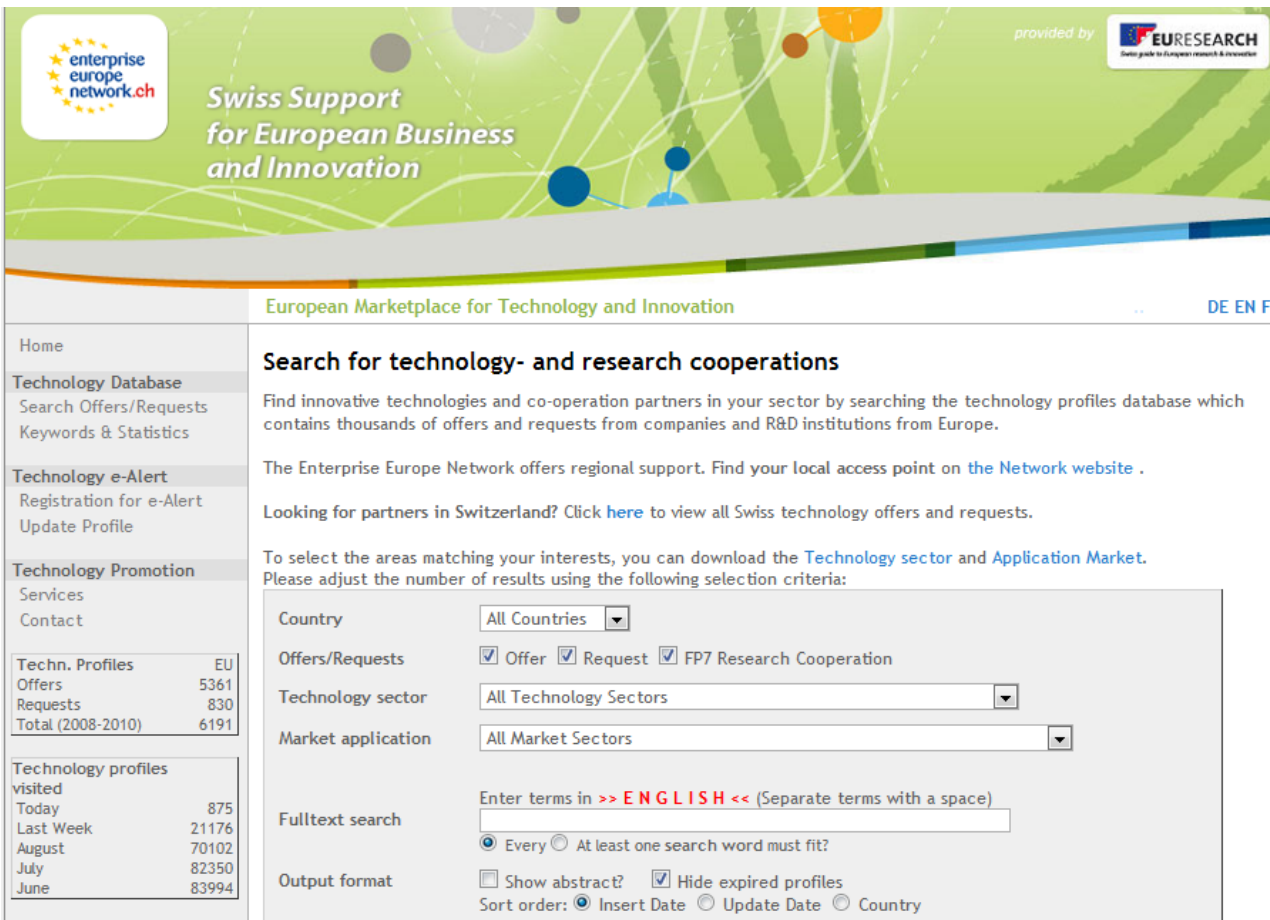

You describe what you offer / are looking for.

We promote your offer / request anonymously in over 50 countries to find cooperation partners!

➔ You'll receive approx. 3–15 expressions of interest (1 year)

# Technology Database

The screenshot shows the website interface for the Technology Database. At the top, there is a banner with the Enterprise Europe Network logo and the text "Swiss Support for European Business and Innovation". Below the banner, the main navigation bar includes "Home", "Technology Database", "Search Offers/Requests", "Keywords & Statistics", "Technology e-Alert", "Registration for e-Alert", "Update Profile", "Technology Promotion", "Services", and "Contact".

The main content area is titled "European Marketplace for Technology and Innovation" and "Search for technology- and research cooperations". It provides a brief description of the database and offers regional support information. Below this, there are search filters:

- Country:** All Countries
- Offers/Requests:** Offer, Request, FP7 Research Cooperation (all checked)
- Technology sector:** All Technology Sectors
- Market application:** All Market Sectors
- Fulltext search:** Enter terms in >> ENGLISH << (Separate terms with a space). Options: Every (selected), At least one search word must fit?
- Output format:** Show abstract? (unchecked), Hide expired profiles (checked). Sort order: Insert Date (selected), Update Date, Country.

On the left side, there is a sidebar with a table of statistics:

Techn. Profiles	
Offers	5361
Requests	830
Total (2008-2010)	6191

Technology profiles visited	
Today	875
Last Week	21176
August	70102
July	82350
June	83994

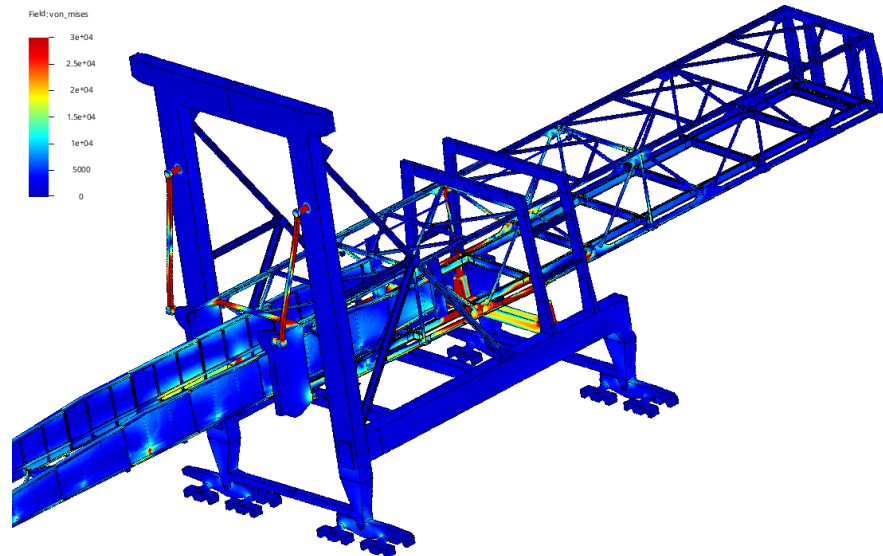

- 6`200 Anonymous Technology Offers / Requests and Research Request

- 330 technology keywords

- Max. 1 year online

# Example EEN Partnering (Technology Offer)

*Next-generation software for high-speed and very accurate computer-based simulations of very large and complex mechanical structures*

**Who:** Swiss startup

**Aim:** find industrial partners of other industrial fields (e.g. medical, watch, electronic) *or* clients that need consultancy

Uploaded 4 months ago on the database  
⇒ 2 active expressions of interest

# Technology E-Alert: innovation and market watch

Register for free for the technology alert by defining your profile of interest

- ➔ You'll receive the related new offers & requests in your inbox

# Technology E-Alert: innovation and market watch – example:

According to your profile of interest for the Technology e-Alert of the Enterprise Europe Network we have the pleasure to send you the following technology profile:

**Title:** H2020 ICT-25-2015: Generic micro- and nano-electronic technologies: Probability based hardware/electronic/system development

**Abstract:** A UK research group expert in biologically-inspired computer architectures & sustainable energy generation and management seeks partners for the H2020 ICT-25-2015 call. The project will investigate the use of biological models to develop a new generation of computing platforms which will not be affected by limitations inherent in today's technology. Industry and research partners expert in computer architecture, semiconductors, applications, emerging technology and biological systems are sought.
